

West Dover Fire Department
Officer's Meeting Minutes
January 9, 2019

Officers Present: Mickey Kersten, Mike Hescoock, Tim Dolan, Rich Werner, Ian Boyd
Meeting Called to Order at 5:05pm

Fan is in for Engine 1, Mickey will pickup

Radio is not working in Engine 1 again (does not receive). Rich will call Keene

Portable Radios – Ian cleaned charging docks and all are working now

Sinirji 911

- Working well
- Still being developed, trial as long as we need
- Tim will buy TV to setup in station
- Tim will invite rest of the dept to start using the system, go over it while eating at next drill
- Ask about getting alerts for mutual aid calls

Signing onto air

- Only someone that can respond with an engine should sign us on
- If you can't respond to a call on your own, do not sign on air. By signing onto air it delays re-tone/toning another dept – have had a few instances of this lately

Rich – Ask Windham Regional about a new map

Ask Association for new digital signs to replace the slide-in letters and paint/replace the top part of the sign

February Drills

- Feb 6 – Cold Weather Pumping
- Feb 13 – SAR - GPS Training in the woods (dress appropriately)
- Feb 20 – Air packs with Bill

Meeting Adjourned @ 6:02pm

Next meeting February 13th @ 5pm
